

Ring sizing chart

Choosing the correct size for your Daniel Bentley ring is very simple. We use the European metric system for measuring our rings. If you know your size, find the corresponding size on the chart and select this size on the shop page.

Alternatively, you can print out this A4 page at 100%, with no scaling, and place your ring over the sizing diagram. This measures the inside diameter of your existing ring. Choose the number that is closest and select this size when ordering on the shop page.
